

University of Cincinnati

Student Fact Book Fall 2024

Five-Year Trends

Glossary

Page 1 of 3

- **ACT:** ACT, previously known as the American College Testing program, measures educational development and readiness to pursue college-level coursework in English, mathematics, natural science, and social studies. Student performance does not reflect innate ability and is influenced by a student's educational preparedness (IPEDS).
- **Cincinnati Metro Region:** The Cincinnati metropolitan area, informally known as Greater Cincinnati, is a metropolitan area that includes counties in the U.S. states of Ohio, Kentucky, and Indiana around the Ohio city of Cincinnati (Census Bureau).
- **College Credit Plus (CCP):** The College Credit Plus Program (CCP) allows Ohio residents in grade 7-12 to earn college and high school credit at the same time by taking college courses from community colleges or universities (Ohio Department of Higher Education). Students are permitted to register for nonsectarian, non-remedial courses for high school and/or college credit (University of Cincinnati).
- **Co-operative Education (Co-op):** Co-op is an educational model in which students alternate traditional academic semesters with semesters spent working full-time in their chosen field. This unique college program originated at UC in 1906 (University of Cincinnati).
- **CPS:** Stands for "Cincinnati Public Schools" and indicates the data are about CPS graduates. A student or applicant is identified as being a CPS graduate if the CEEB code on their most recent high-school transcript matches a CPS CEEB code.
- **Distance Learning Programs:** Distance learning programs are identified as programs in which credits are earned either wholly or largely online and have a distance learning fee associated with them (University of Cincinnati).
- **Entry State/County:** The state/county of residence provided by student upon entry to the university (University of Cincinnati).
- **First-Generation Student:** Based on parental education level. If neither of the student's parents or legal guardians completed a bachelor's degree, the student is defined as first-generation (University of Cincinnati).
- **First-Time Degree-Seeking Student:** A student who has no prior postsecondary experience (except college credits earned before high-school graduation) attending any institution for the first time at the undergraduate level and who are enrolled in courses for credit seeking a degree, certificate, or other formal award. Also includes students enrolled in the fall term who attended college for the first time in the prior summer term and students who entered with advanced standing (IPEDS).
- **Full-Time Equivalent (FTE):** The full-time equivalent (FTE) of students is a single value providing a meaningful combination of full-time and part-time students (IPEDS). FTE is calculated by taking the number of credit hours a student is taking and dividing that by 15, except MD students, where each student equals 1 FTE.
- **Graduation Rates:** Graduation rates are calculated by the number of the first-time, full-time, degree-seeking students who complete their degree in 150% of the allotted time. For a bachelors degree, 150% of the time is six years. For associates degrees, 150% of the time is three years. Students may be removed from the graduation rate calculation if they left the institution prior to earning a degree for one of the following reasons: death or total and permanent disability; services in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions (IPEDS).

Glossary

Page 2 of 3

- **In-State/Out-of-State:** In-State/Out-of-State residency is determined by the student's fee basis. Students who pay an Ohio tuition rate are classified as in-state. Any other student, including students who pay the metro rate or the full out-of-state tuition, are classified as out-of-state (University of Cincinnati).
- **International Students/Nonresident:** International students are defined as "nonresidents" by immigration status. Nonresident students are people who are not a citizen or national of the United States and who are in this country on a visa or temporary basis and do not have the right to remain indefinitely (IPEDS).
- **Load Level:** IR adds up the credit hours for students with more than one career, and bases the classification for part-time/full-time on the following rules. A student's part-time or full-time status based on his/her career (see below; University of Cincinnati).
 - Undergraduate: Part-Time = 1-11 credit hours, Full-Time = 12+ credit hours, Study Abroad and Co-op/LPE (Lindner Professional Experience)
 - Students count as Full-Time
 - Graduate and Law (JD): Part-Time = 1-9 credit hours, Full-Time = 10+ credit hours
 - Professional (MD): classified as Full-Time
- **Other Programs:** Within the Colleges filter there is an option to select "Other Programs". These other programs consist of Dual Credit, CCP, College 50, and International Pathways. Prior to 2023, students with a primary academic organization of Prof Pract & Exp Lrng were included in Other Programs. Beginning in 2023 with the introduction of the College of Cooperative Education and Professional Studies, these students are no longer included in Other Programs.
- **Pell-Eligible:** Undergraduate students are eligible to receive a Federal Pell Grant if they have not earned a bachelor's or a professional degree and demonstrate financial need. Pell grants are used to help these students meet their education expenses (US Department of Education).
- **Permanent Address Type:** The permanent address, including state/county of residence, on file for the student. Updateable by students.
- **Retention Rates:** A measure of the rate at which students persist in their educational program at an institution, expressed as a percentage. At UC, this is the percentage of first-time bachelors degree-seeking undergraduates from the previous fall who are again enrolled in the current fall.
- **SAT:** Previously known as the Scholastic Aptitude Test, this is an examination administered by the Educational Testing Service (ETS) and used to predict the facility with which an individual will progress in learning college-level academic subjects (IPEDS).
- **STRIVE and STRIVE Schools:** STRIVE is a cooperative effort between local schools, businesses, non-profits, and civic organizations in the region to improve the educational system from preschool through college. STRIVE schools include Cincinnati Public Schools, Covin..

Glossary

Page 3 of 3

- **Transfer Student:** A student entering the reporting institution for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). This includes new students enrolled in the fall term who transferred into the institution the prior summer term. The student may transfer with or without credit (IPEDS). UC identifies transfer students based on application type.
- **Transition Students:** Transition students are identified as students who were enrolled in a UC Blue Ash or UC Clermont primary program in the fall, spring, or summer semesters immediately prior to enrolling in a UC Clifton primary program in the fall semester of the selected year (University of Cincinnati).

Updated November 7, 2024: Corrections were made to remove three students from the first-time cohort for Fall 2024.

Updated June 12, 2025: In summer 2025, updates were made to the 2023 and 2024 new transfer student data to correctly flag students who began at UC in the summer term as part of the subsequent fall transfer cohort. Per federal (IPEDS) guidelines, these students should be counted in the fall cohort, but had been inadvertently excluded in those two years. This issue did not affect data prior to 2023, as those years already reflected the correct cohort assignments.

Notes:

- Starting in 2016, all enrollment numbers and demographic breakdowns are based on the student's primary Career-Program-Plan (CPP) stack.
- When using the program and plan filters, select both the UniverSIS and Catalyst name to display data spanning all five years.
- A PDF version of the Fact Book is available on UC's Institutional Research & Academic Analytics website, as well as Bearcats Landing.

Notes:
 -Credit hours taken are combined across academic careers and include credit hours audited.
 -Zero credit hours include co-op/internship enrollments.
 -Third and fourth year medical students take credit weeks rather than student credit hours. This difference can cause their credit hour totals to be higher than other types of students.

NOTE:

The bar graph has been revised to align with IPEDS reporting for previous years through 2016. Some years have small differences (n=1) in what was reported to IPEDS due to exclusions not being removed. IPEDS graduation time is 150% of the time it takes to complete a degree. For associate degrees that is three years. Beginning with the 2013 cohort, IPEDS clarified guidelines to treat campuses as separate institutions. Students who transitioned between campuses are now counted as transfers-out. This has led to higher counts of transfers-out. Changes to National Student Clearinghouse reporting resulted in students enrolled in UC Online courses being counted as transfers-out. This change has been adjusted for in 2017.

***Indicates data are preliminary.**

Notes: 1) IPEDS graduation time is 150% of the time it takes to complete a degree. For associate degrees and certificates that is three years, for baccalaureate degrees that is six years. 2) IPEDS counts baccalaureate degree-seeking students as graduates if they complete a bachelor's degree in six years, an associate degree or certificate in three years, or go on to enroll in a PharmD program without completing an undergraduate degree. 3) Beginning with the 2013 cohort, IPEDS clarified guidelines to treat campuses as separate institutions. Students who transitioned between campuses are now counted as transfers-out. This has led to graduation rates appearing lower. 4) The 2009, 2010, 2011, and 2012 graduation rates have been revised to reflect official figures as reported to USDE through IPEDS. *Data are preliminary.

Notes:

- IPEDS graduation time is 150% of the time it takes to complete a degree. For associate degrees and certificates, that is three years; for baccalaureate degrees, that is six years.
- IPEDS counts baccalaureate degree-seeking students as graduates if they complete a bachelor's degree in six years, an associate degree or certificate in three years, or go on to enroll in a PharmD program without completing an undergraduate degree.
- In this case, students who go on to enroll in a PharmD program are counted as graduating within six years.
- Beginning with the 2013 cohort..

The 2009, 2010, 2011, and 2012 graduation rates have been revised to reflect official figures as reported to USDE through IPEDS.
